CONSTRUCTION SERVICES FOR HVAC UPGRADE FOR CSBG PROGRAM AT BREWER ANNEX P06-01-11

Scope of work for the above project is being changed as a result of the proposer's conference held on October 26, 2011:

- Two options will now be considered in the HVAC upgrade:
 - Option I – based on original Scope of Work, to install PTAC thru-the-wall units in each room, unit quantity and btu depending on square footage and/or load calculations, with consideration of an electrical upgrade. Permanently close all vents connected to ductwork.
 - Option II – replace both furnaces and condensing units w/ pads, refrigerant and drain lines if necessary, and replace all ductwork. Change/modify all duct openings and grills as necessary. Replace ceiling tiles and grids.

Work for Option I can only be completed by a general contractor. General contractors are encouraged to submit proposals for both options. Proposals will be considered for award if approved by the Office of Economic Opportunity and GLEAMNS Board of Directors. GLEAMNS HRC will consider all options for the best interest of the agency. All contractors, including HVAC mechanical contractors, must submit a copy of their contractor's license with proposals. All contractors must complete the revised 'Proposal Submission Form' attached and include any other documents to support their proposals.

Deadline for proposals is changed to Wednesday, November 9, 2011 @ 11:00am. Only offerors' names will be announced at this time.

All other pertinent information found in original RFP remains the same.
